Product Description

3d Solid Set 10 Cm - Mathematics Lab Equipments

Introduce Students to Solid geometry and investigate shapes, faces, vertices, edge, curves and angle with this 17-piece set of transparent plastic Shapes. These Large geometrical shapes add a tactile element to geometry lessons. Each shape has a 10 cm dimension, illustrating relationships between area, volume, shape and size. Transparent plastic shapes include: cone, sphere, hemisphere, cube, cylinder, rectangular prism, hexagonal prism, triangular prism and square pyramid and many more.
