

## EPABX Demonstrator

**Product Categories:** [Audio Visual Lab Demonstrators & Trainers](#), [Audio Visual Lab Demonstrators & Trainers](#), [Electronics](#), [Engineering Equipment](#)

**Product Page:** <https://www.labappara.com/product/epabx-demonstrator/>

### Product Description

#### **EPABX Demonstrator**

EPABX Trainer Demonstrator is a trainer of a very useful & needed system for communication. The EPABX Trainer helps us to understand the basic concept & working of an Electronic Telephone Exchange (EPABX) and can be used as an actual EPABX. The trainer provides easy understanding of the working of the system. Visualizations of the actual PCB with relays makes it unique in helping to understand the working of an EPABX. Various Test points are provided to monitor the Telephone signals / waveforms / voltages. Instruction Manual is provided.

#### Features:

Helps to understand the basic concept & working of an Electronic Telephone Exchange (EPABX)

Actual PCB for better understanding

Supplied with four Telephones

LED visualization and circuit study

Switched faults, Detection and Switching phenomenon

Instruction Manual

## Normal EPABX functions will work without Junction Lines
