Product Description

Iron Slotted Weight - Physics Equipment

Made from iron shaft with slots painted in black color. These weights are generally used in mechanical labs for testing purposes like for pressure testing, tensile strength testing.

Manufactured from, iron rod & this type of slotted weight is very much accurate than all.

Features:]

Corrosion resistant

Proper machining

Retain shine for longer period of time.

Capacity

- A. 500 gms
- B. 1 kg
- C. 2 kg
- D. 5 kg
- E. 10 kg
