## Product Description

Pattern Block (Foam) - Mathematics Laboratory Equipment

Pattern blocks offer a distinctive way for your child to learn shapes

Using geometric , color shapes such as triangle ,square ,parallelograms, rhombuses, trapezoids and hexagons, provide hands-on activities for learning fractions, shapes, addition, subtraction and other mathematical concepts.

Geometry shape activities encourage tour child to learn math with an entertaining approach.

Kids also learn designs, relationships, angles, area, perimeter and symmetry with pattern block activities ..
